

# 4th IEEE International Conference on Global Software Engineering

Limerick, Ireland | July 13-16, 2009  
<http://www.icgse.org>

## Organizing Committee

**Alberto Avritzer**  
Siemens Corporate Research

**Juho Mäkiö**  
Research Centre for Information  
Technologies

**Stefanie Betz**  
University of Karlsruhe

**Rafael Prikladnicki**  
PUCRS, Brazil

## Program Committee

**Dr. Andre Bondi**  
Siemens Corporate Research

**Prof. Dr. M. Esser**  
St. Petersburg State Polytechnic  
University

**PhD. Robert Feld**  
Blekinge Inst. of Technology

**Prof. Dr. Eila Järvenpää**  
Helsinki University of  
Technology

**Dr. Andreas Kotulla**  
Telisys GmbH

**Dr. Steve Masticola**  
Siemens Corporate Research

**Prof. Dr. Andreas Oberweis**  
University of Karlsruhe

**Dr. Maria Paasivaara**  
Helsinki University of  
Technology

**Dr. Darja Smite**  
Riga Information Technology  
Institute

**Prof. Dr. Riitta Smeds**  
Helsinki University of  
Technology

## Call for Papers ICGSE 2009 Workshop

### *Empirical Experiences, Metrics and Tools for Project Management in Globally Distributed Software Development Projects Workshop- July 13, 2009*

The challenging issues arising in the field of global software engineering projects require novel approaches in risk analysis, project planning, and methods in order to handle the bounded financial and technical risks.

The goal of this workshop is to provide a forum for researchers and professionals interested in global software development to discuss and exchange ideas. In particular, this workshop takes the perspective of the practitioner and focuses on the techniques that will help software professionals to meet the unique challenges in a global development environment. Thus, the major goal of this workshop is to discuss novel methodologies for risk management for global software development. Additionally, we want to provide a platform bringing together researchers and practitioners in order to share their knowledge and requirements in the field of global software development.

The challenges that are coupled with the management of distributed software development projects call for new process models, techniques, methodologies and tools. This workshop focuses on multiple aspects of management of distributed software development. Topics of interest to the conference include the following aspects of global software engineering projects (but are not restricted to):

- requirements engineering for globally distributed software development projects
- requirements description in globally distributed software development projects
- multi-sourcing in global software development
- quality metrics derived from globally distributed projects
- risk management / risk modelling / risk analysis of global software development projects
- process for planning and execution
- organizational models and strategies
- project portfolio management
- communication models for distributed software development teams
- causalities between critical success factors
- metrics for critical success factors
- problem handling during project work
- outsourcing / off-shoring contracts
- decision support systems
- strategic planning
- project planning and preparations
- simulation

### *Paper submission*

Paper should be submitted to <http://www.easychair.org/conferences/?conf=eemgdsdpw09>.

Your paper must conform to the IEEE proceedings publication format (8.5" x 11", Two-Column Format) described at [IEEE/CPS](http://www.ieee.org). Your paper should not be longer than 6 pages including all text, references, appendices, and figures. Your submissions should be in PDF format. Submissions that exceed the page limit (6) or do not comply with the proceedings format will be desk rejected without review. The results described must not be under consideration for publication elsewhere. Conference details are available on <http://www.lero.ie/icgse2009>.

### *Important Dates*

Paper submissions:	April 15, 2009
Notification of authors:	May 1, 2009
Camera-ready papers due:	May 5, 2009
Deadline for early registration	May 5, 2009
Workshop	July 13, 2009
